# ARC

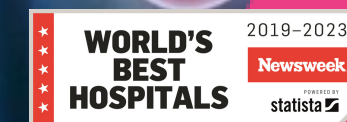

INNOVATION AT SHEBA MEDICAL CENTER

**A** ccelerate   **R** edesign   **C** ollaborate

ARC is a global ecosystem that aims to develop, pilot, and roll out game-changing medical innovations.

An open innovation environment, ARC promotes accelerated development and implementation of healthcare innovation by bringing together:

- **Leading academic medical centers**
- **Innovative startups**
- **Strategic industry partners**

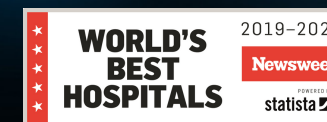

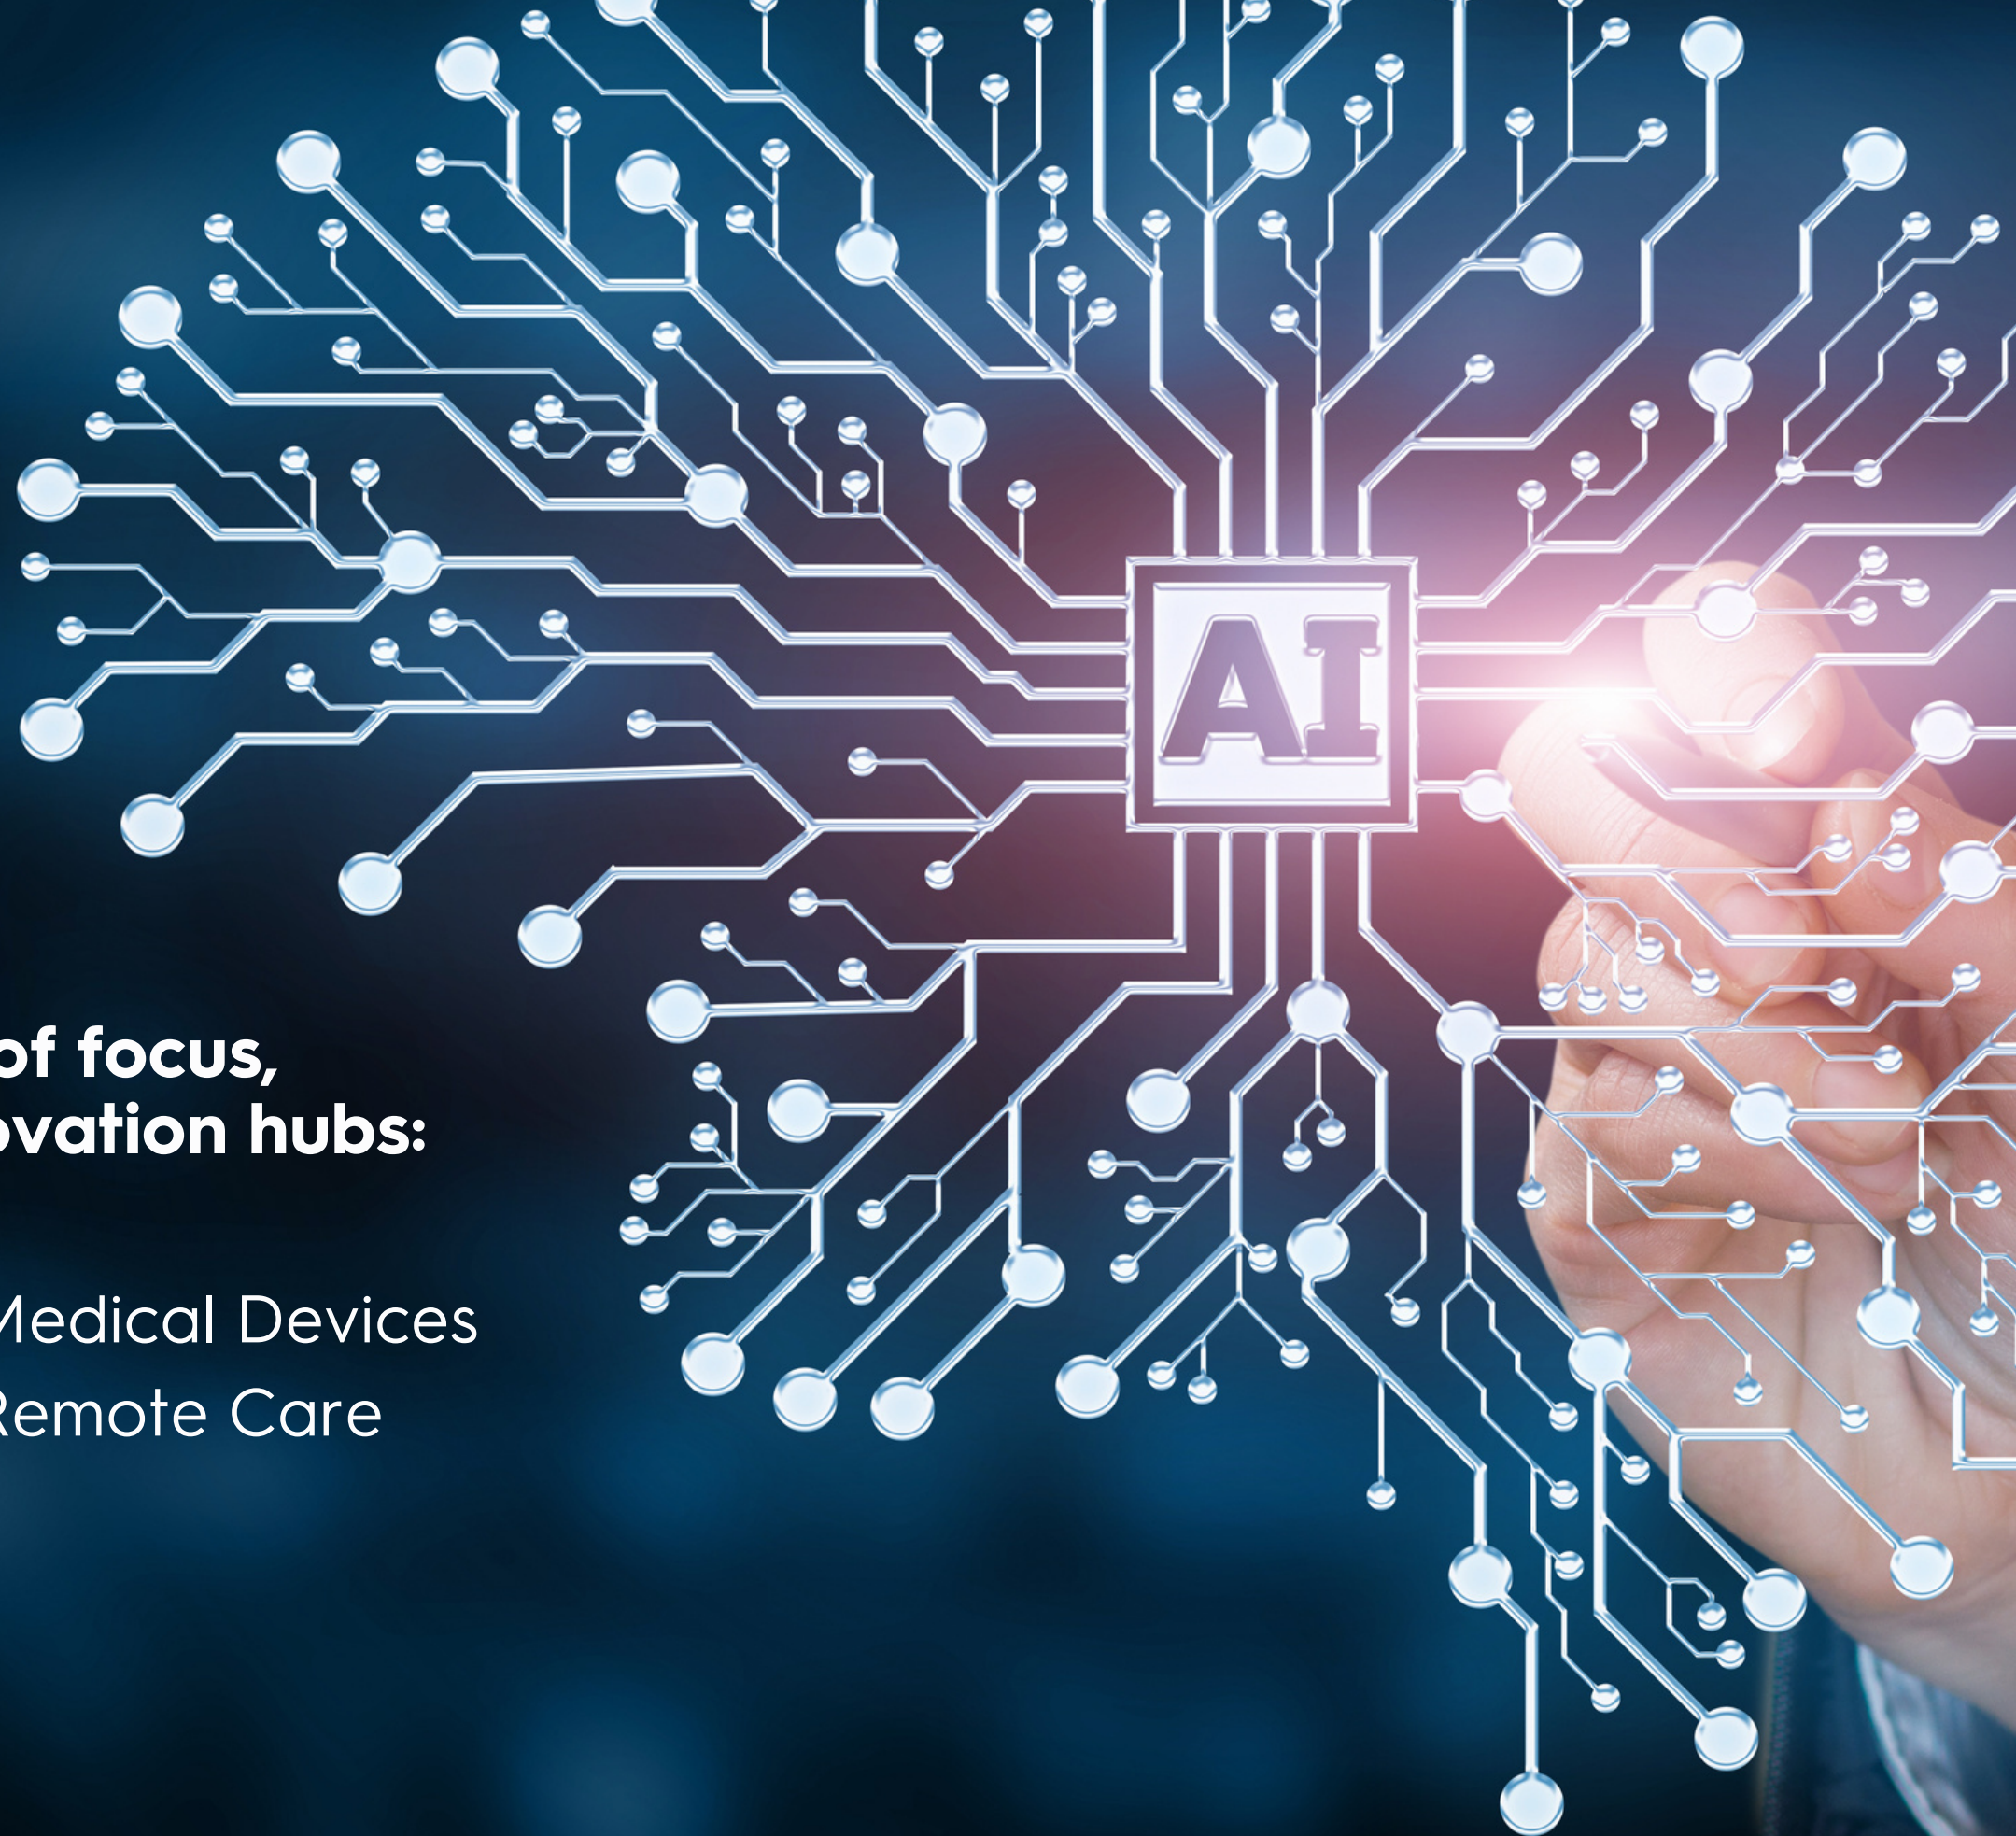

# ARC

INNOVATION AT SHEBA MEDICAL CENTER

**At Sheba, ARC presents 5 thematic areas of focus, which are designated as the following innovation hubs:**

- Precision Medicine
- Extended Reality
- Artificial Intelligence
- Medical Devices
- Remote Care

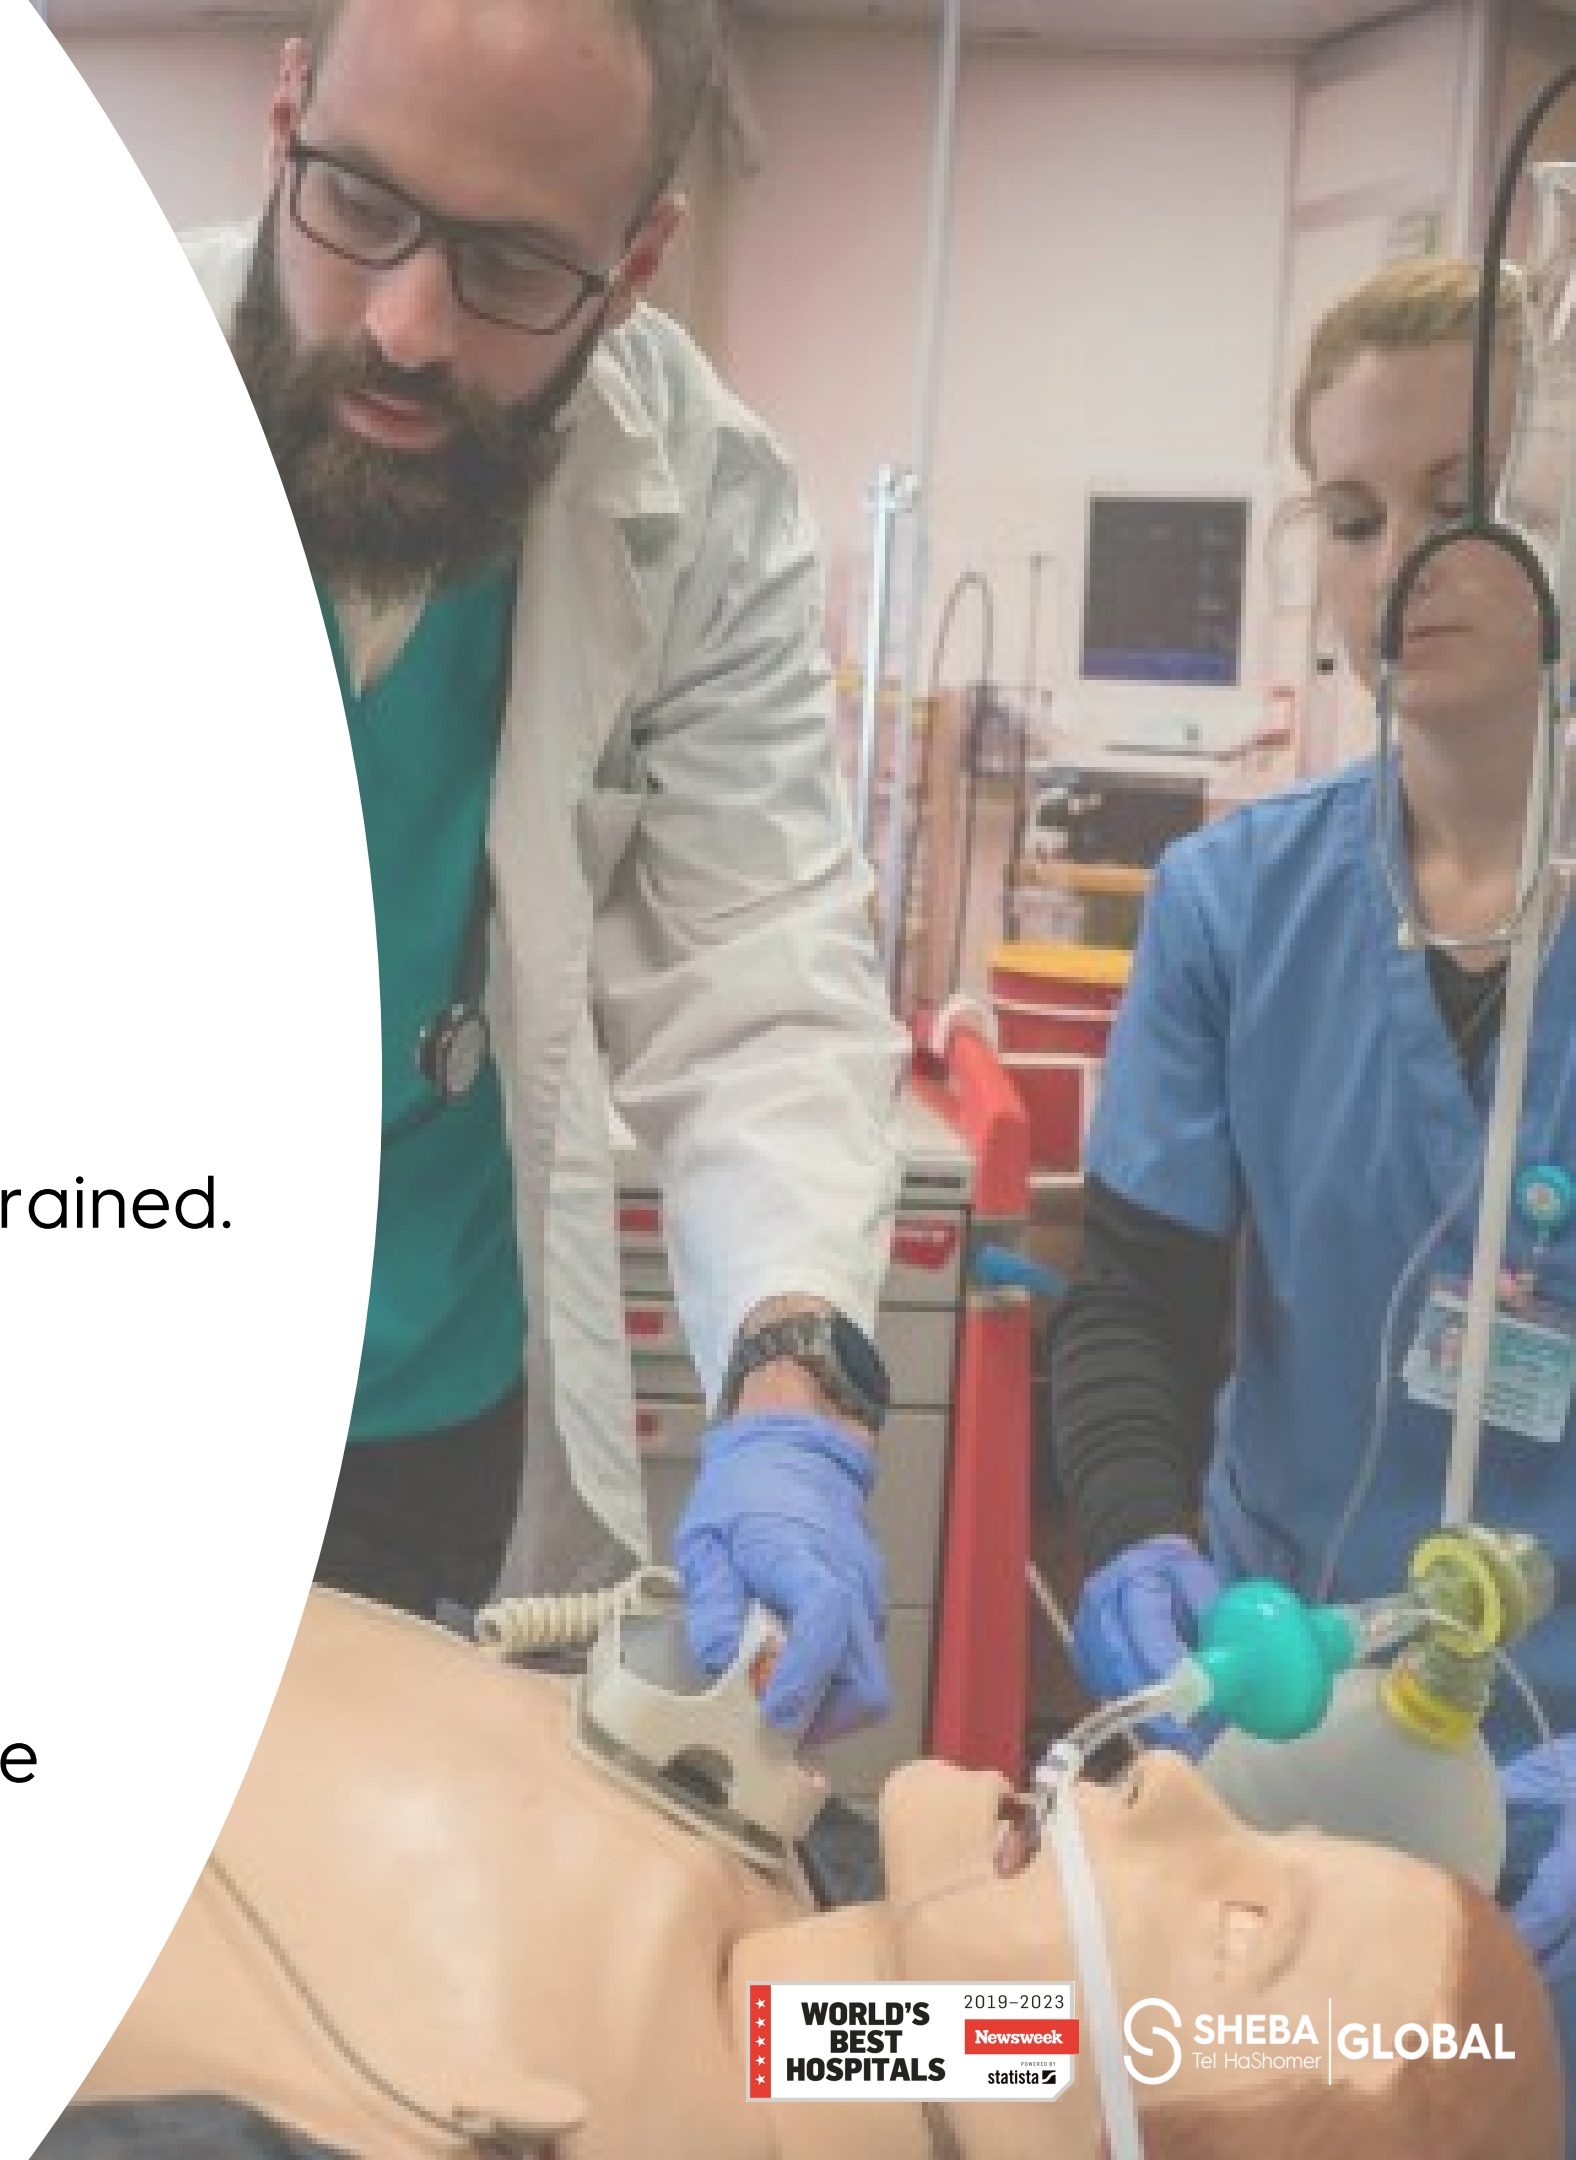

## The MSR-Azrieli Center for Medical Simulation

The MSR Center for Medical Simulation is a global leader in simulation-based medical education that revolutionized the manner in which physicians and allied health personnel are trained.

### Our Mission:

- Providing advanced simulation-based medical training
- Promoting safer, more ethical, patient-centered healthcare

# A Global Leader in Medical Simulation

Over 18,000 medical professionals are trained each year at MSR, where they participate in:

- Simulation-based exams and assessment
- Simulation-based screening, licensing and accreditation exams
- Simulated patient encounters with professional actors
- Simulated clinical and surgical procedures
- Simulation-based emergency medicine training

# Sheba Beyond **Virtual Hospital**

Among the world's first virtual hospitals, Beyond provides access to Sheba's premier medical services and leading experts for anyone, any place, any time.

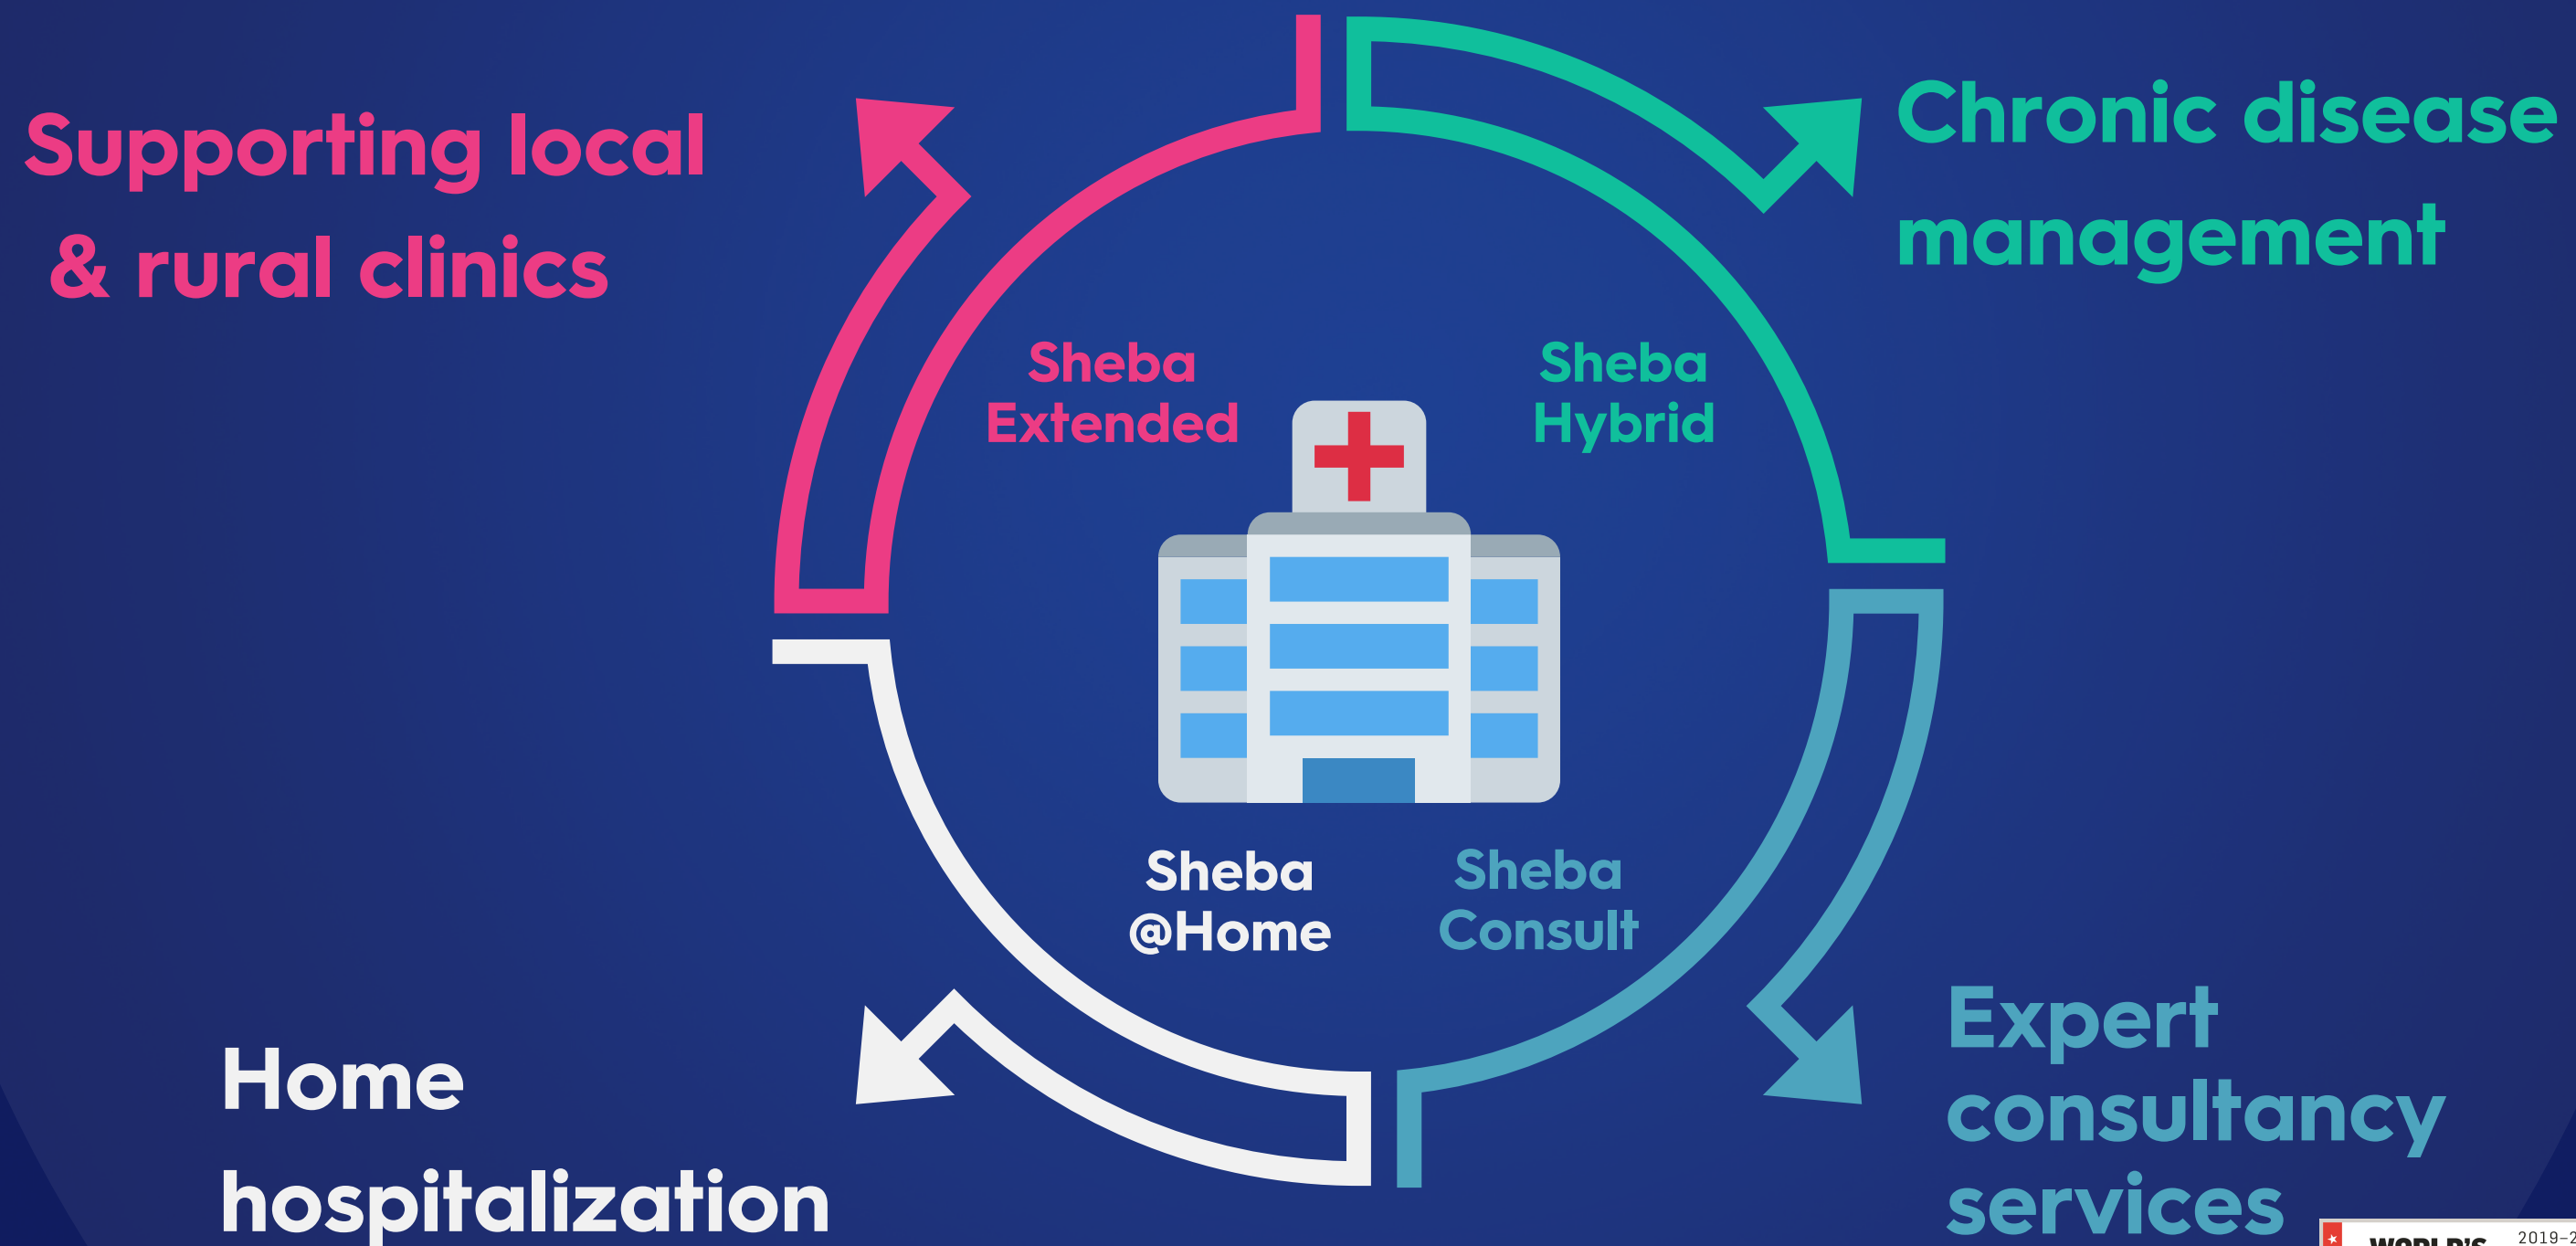

As of today, the virtual hospital's activities include:

- Over 130 virtual clinics
- Hundreds of virtual visits each day

The unique programs initiated and operated by Beyond include:

- Home hospitalization
- Multidisciplinary online rehabilitation
- Virtual clinics
- Remote chronic disease management

- **Health Facility Design and Planning**

## Global Patient Services

# Hope Without Boundaries

# Global Patient Services

With decades of experience tending to the needs of tens of thousands of patients from across the globe and their families, Sheba has gained extensive expertise personalizing our services to suit people of different cultures and needs, to whom we are proud to provide our full range of innovative, life-saving medical procedures.

Patients from **over 100 countries** come to Sheba for premier medical care.

# Global Patient Services

## Our Patients Benefit From 360° Care

Assistance with arranging medical record review, travel, visas, accommodation, and language interpretation as needed

Advanced therapeutic and laboratory facilities enabling end-to-end treatment

A dedicated medical coordinator assisting throughout the entire treatment process

Access to cutting-edge therapies available in few other medical institutions globally

## Patient process

# The REACT Global Community

Compelled by a commitment to 'Hope Without Boundaries,' we saw it our duty to introduce doctors around the globe to the latest innovations in care.

That is why we created the REACT Community - a way for medical professionals across the globe to communicate with Sheba's top clinicians.

## REACT members benefit from:

A private LinkedIn group

Annual conference with lectures from leading experts

Patient-specific treatment advice

Updates on the latest advances in care

A forum for professional discussions

Live events

# Humanitarian & Disaster Response Center

 World Health  
Organization

# Global Activities

Disaster Deployment ● Humanitarian Missions ● Teaching & Training ● Research & Innovation

# An Ally in Times of Adversity

The Humanitarian & Disaster Response Center was established in 2017 by highly experienced specialists to lead the charge in preparing for and responding to global humanitarian or medical crises as well as pass on unique emergency medicine know-how.

Since its inception, the HDRC has launched multiple disaster response missions.

2019-2023

# Building Capacity Where Needed Worldwide

The Center is involved in multiple projects in developing countries, dispatching teams to treat patients and train local health professionals in advanced medical care.

# Friends of Sheba

The ten non-profit Friends of Sheba organizations around the world are dedicated to raising awareness of Sheba's work and support its compassionate care, cutting-edge research and medical training programs, while also promoting clinical and research collaborations
